

Another mall

A nine-storeyed mall will open in AG Block this year. The office spaces in AMP Baisakhi will open from April and the retail stores from August.

The mall will have three basement floors, with parking for 75 cars. The third basement floor will also house vendors, who at present sell from the open-air Baisakhi market. This area will not be air-conditioned. From the ground floor to the third floor there will be retail outlets, restaurants and a banquet hall. Thereafter will be office space. There will be three separate entry and exit points to the mall, one each for the retail outlets, the rehabilitated vendors and the offices.
